**SERVICE LETTER 309**

**TO: CENTRAL DISTRIBUTORS AND SERVICE DEALERS –  
WORLDWIDE**

**SUBJECT: REMANUFACTURED CATERPILLAR PUMPS**

In response to a request from Caterpillar, Stanadyne has begun a program to remanufacture DB2 and DB4 pumps for some of their applications. As you may know, Caterpillar has a business philosophy of self-servicing whenever possible and wishes to have complete units available within their parts system to reduce engine downtime in remote areas of the world where the availability of Stanadyne service may be limited.

Please note that the remanufactured Caterpillar injection pumps will use a special nameplate as shown below.

Because the nameplate data on Caterpillar remanufactured fuel pumps does not make reference to the Stanadyne model number, the part number cross reference listing on the following page is provided in order for the Stanadyne Service Network to be able to identify and service the product if called upon to do so.

### **Warranty**

Stanadyne's warranty coverage for these remanufactured pumps is available to Caterpillar dealers only via Caterpillar channels. As a result, Stanadyne dealers should not provide any warranty consideration for these units if received for service regardless of the complaint, age, or hours of operation.
