

ENVIRONMENTAL POLICY

Stanadyne LLC is committed to protecting the environment and to providing environmentally safe workplaces. Compliance with applicable environmental laws, regulations and customer contractual requirements is a minimum standard and is a shared responsibility of all Stanadyne employees.

Stanadyne is committed to following:

- Conserving resources and promoting environmental protection by reusing and recycling materials;
- Preventing pollution by using materials and techniques which minimize adverse impacts on the environment and which minimize the generation of waste materials; and
- Improving our Environmental Management System with environmental objectives and targets set and reviewed annually.

Senior management has the primary responsibility for ensuring the implementation of this policy, allocating resources, and establishing and supporting appropriate programs.

March 2015

A handwritten signature in black ink, appearing to read "D.P. Galuska", written over a horizontal line.

David P. Galuska
Chief Executive Officer
